3.0 hours CME Course – Pending Approval:
2013-14 Flu Vaccination Recommendations and
Vaccine Safety/Addressing Parental Concerns

Wednesday, October 9, 2013

Two Sessions Offered

Times: 8:30 AM to 11:30 AM * 1:00 PM to 4:00 PM

Course Objectives:

1. State the importance of annual flu vaccination for the Healthcare Personnel (HCP) in Los Angeles County.
2. List the nonspecific systemic symptoms some persons experience after the flu vaccination.
3. Identify the new flu vaccine available for persons with a history of egg allergy.
4. List two reasons pregnant women are recommended to receive the **flu shot** annually.
5. List 2 reasons why a child should receive all vaccines recommended.
6. State 1 major consequence that occurs as a result of parental concern with vaccine safety.
7. State 2 factors involved in parental decisions about vaccinations.
8. Identify 2 credible websites for vaccine-hesitant parents.

Target Audience:

Physicians, nurses, PAs, pharmacists, DoD paraprofessionals and other healthcare providers who administer vaccines or set policy for their offices/clinics, and communicable disease or infection control programs.

Registration information will be available soon.
